

USE MAUDS AND JUMBO FLOUR

TRAVELERS' CHEQUES.

One of the important things to consider in preparing for a trip is how best to carry the money that will be needed. Currency and silver are often lost or stolen, and, unfortunately, rarely recovered. Great difficulty is frequently encountered in getting one's personal checks honored among strangers. Even bank drafts require personal introduction or adequate identification of the holder before encashment.

To obviate the perplexities of the traveler and at the same time guard the interests of banks generally and others who may be called upon to cash checks, the American Bankers' Association has issued its own authorized Travelers' Cheques, current at par in this and other countries of the world. They are handsome in appearance and are made of fine, specially protected paper to insure them against raising or alteration. They are readily accepted and cashed by banks, hotels, railroads, etc., without identification other than the counter signature of the owner of the cheques. They constitute, therefore, by far the safest and most convenient method of carrying money.

THE FARMERS SAVINGS BANK desiring to avail itself of every means of help and convenience for its patrons, has been made a bank of issue for these cheques and is prepared to furnish them on application in denominations of \$10, \$20 and \$50. We shall also be glad to explain the system more fully to any one who is interested in the matter.

Explosion on River

Boonville, Mo., March 18.—A boiler on Charles Meierhoffer's sand dredge exploded at 6 o'clock this morning and the shock was felt all over the town. Plate glass windows in the downtown district were shattered, while along the river front all the houses were damaged, walls being cracked and windows and doors broken. At Stammer John's greenhouse 300 panes of glass were broken. The cause of the explosion is unknown. The watchman was just getting up steam and claims the boiler was half full of water with fifty-five pounds of steam up. He started for some coal and reached a shed, a short distance from the dredge, when the explosion occurred. The boat was completely wrecked and sank immediately. Timbers and flues were thrown several blocks from the scene, one flue penetrating a large sycamore tree to the depth of five inches and others tearing up the ground far from the scene of the explosion. No one was injured. The loss will reach \$10,000.

Weston Still Champion

At Newton, Kansas, one day last week three men tried to walk with Edward Weston, the pedestrian, representing old age, middle age and youth. George E. Ayer, 46 years old; Robert Grisham, 45 year old, assistant roadmaster, and a reporter for the Star, who played on last year's K. U. football team. At the twenty-fifth mile post Mr. Ayer climbed on his motor car, complaining of a lame knee. At the twenty-seventh mile the football player didn't have to be coaxed to take a seat on the commissary car. Complaint: Just tired. At the thirty-third mile Mr. Grisham was picked up and Mr. Weston, 72 years old, completed the remainder of the forty-seven miles alone. Mr. Grisham, however, established a record for having walked the farthest with the champion on this trip.

Weston does not walk fast. His stride is short, but the regularity and constancy of his steps are too much for the amateur.

"When I reach Emporia, I will be ten days ahead of my schedule," Weston said when he reached his room. "For each day that I enter New York ahead of my schedule of ninety days I receive a bonus of \$500. This offer is made as a wager by several of my Wall Street friends. It is this great weather and beautiful country that is going to win \$5,000 for me. The people here are just like one large family, so sociable and kind. Don't forget to call me at 4 o'clock, John!" And he went to sleep.

Gumption on the Farm

Trade one of the pups for a pig. Roll the meadow and green fields.

Beware of planting sprouted potato seed.

Plant the garden when the cherry blooms.

It is a scabby business to plant scabby potatoes.

He who by the plow would thrive must straighten up and look alive.

Dogs can thrive on bones better than a woman can on unkind words.

Don't plow the ground too wet; get it just right, and then rush things.

Seek only that which is honorable that thou in thy poverty shouldst die rich.

Don't forget to make two sowings of clover, and be sure to use one-half alsike.

Those who charge farmers with the responsibility for the high cost of living tell a fib.

Do not rush the teams too hard; let them have time to get their

shoulders hardened to the work.

The farmer who allowed his implements to be sheltered by the sky during the winter will now find himself out.

When a man insists upon giving you advice, you can readily get rid of him by offering him a little in return.

If there is no place in the shed for the grindstone, get a box at the store that will fit over it, thus keeping it covered from the weather.

Do you remember, when you were young how it encouraged and cheered you to be consulted by your elders? Try it on the young folks of the household.

Everybody is impatient to begin the spring work, but it were wise to temper impatience with good judgment and to wait until all the conditions are right.

When you want to do a good job of hoeing or weed cutting this spring put an edge upon the hoe. How much better the tool will work and the operator as well! We despise a dull hoe, and do not own one.

Just as nearly as you can, grow all the stuff you will need for your family and your stock right at home this year. One thing that keeps a good many men poor is buying what they ought to raise themselves.

The Philadelphia Congressman who was charged fifty cents for two boiled eggs in a Washington hotel recently has no cause to shake his fist at the farmer. That modest individual got only eight cents for those two eggs. The forty cents difference went mostly for style.

—Farm Journal.

The Poultry Yard

Perfect cleanliness from now on will cut short the louse crop of June.

If you stamp a date on your eggs, sell them before the date gets old.

Keep your meat scraps where they will not get stale and sour. Fresh feed is what makes healthy hens.

Feed little and often, and be careful about overfeeding. This is the great secret in feeding brooder chicks.

Banish the fighting stock from your pens. Give them a place all by themselves.

Cook some beans or peas, mix them with wheat bran and feed twice a week and see if you don't get a lot more eggs.

Have everything convenient. Steps saved in the care of poultry will mean that much less labor. Labor costs money.

When the brooder chicks seem very thirsty, wild for water, let them drink and feed very lightly while so feverish.

Many a setting of eggs has been spoiled by making the nest on the floor where the wind can come up through the cracks under the old mother hen.

April is a good month to hatch goose eggs. It is also an excellent time for getting out ducklings. Stock hatched now will be best for next years breeding.

Wet, cold feet do not do your hens any good. Chills them and keeps them back from doing their

level best, and that is the only thing that will satisfy you and me.

Don't be in a hurry to remove the hen and her brood from the nest. The tender little chicks need warmth more than they do feed for the first twenty-four hours.

—Farm Journal.

Have your plow shares put on at Lindsey & Jahns where they will be polished like new on an emery wheel.

12-15

Out of The Ginger

The crow sticks steadfastly to his caws.

The chewing-gum girl lives from hand to mouth.

The night-key is not usually the key to success.

Even the wise men are occasionally otherwise.

A mortgage on the house will not prevent the roof from leaking.

There are some men so lazy that they will not even file their liens.

It isn't worth while to call in a veterinarian for a bad case of eggs.

The business of a promoter is to persuade your money into his pocket.

A little vanity keeps a man keyed up to his best, while too much renders him obnoxious to his fellows.

There is many a stump speaker who would much better be at home pulling the stumps from his own clearing.

Some of the real farmers complain that the average city agriculturist doesn't know a corn on the hand from corn in the ear.

The man who sets out in life's race expecting to have a walk-over is likely to be run over before he has proceeded far upon his way.

Little Johnny watching a hen cackling furiously, said: "I know what is the matter with that chicken. She dropped an egg around here somewhere and has forgotten where she laid it."—Farm Journal.

Come see me, J. C.

FARRELL, Agent.

CRESO

is a beautiful bay German stallion, 6 years old, 16 hands high, weighs 1400 lbs. and has a large clean bone; is a perfect model in form, has a kind disposition, and for style and action can't be beaten. He has quite a reputation for a horse so young, as he has been shown eleven times and never failed to win first—twelve at the State Fair at Sedalia. He also won first in the two-year-old ring at Slater in 1906. He is finely bred as his breeding will show. Terms \$10.

This horse formerly belonged to J. T. Moss & Son of Gilliam.

BLACK SAMPSON

Black Sampson is a fine black jack; has an extra heavy bone, is 15 hands high. He has good style and action. There is no need of much talk as he is well known in this vicinity, for he has made four seasons on my farm and has made his own reputation as one of the best ever in this county. Will make this season at my barn 4 miles south west of Little Rock at Hugh Craig's saw mill on Napoleon, Route No. 1. Terms \$8.

DID YOU KNOW

That Kansas ranks first in wheat produced? Third in Corn, and first in Wheat and Corn combined? That you can buy this land in Western Kansas near the railroad from \$10.00 to \$20.00 per acre? Did you know that we are selling as fine land as you ever saw at these low prices and will loan you more than half the money at 6 per cent for five years? We are, and can take you to satisfied buyers. Better look into this matter.
